

Played Assignment 2

MUSIC 72 (Level 2 – free version)

Evaluation Form

INSTRUCTIONS FOR THE STUDENT: You are welcome to study this form – and keep a copy of it – if it will help in your preparation.

Arrange with your Qualified Organ Teacher to help you through the three played assignments (and the organ registration and music theory parts of this course, if needed). Provide a paper or digital copy of this form to your instructor. You might keep another copy of it for yourself to track your progress. It may also be helpful to provide them with a link to the course syllabus. As they help you through the requirements of this played assignment, they can evaluate each item when they feel you have mastered it – or whenever you are ready. Once you complete the played assignment, celebrate! And then move on to the next one!

Of course, through this whole process you are responsible to pay the fees to your teacher as you have arranged.

In this free version of the course there is no need to send this form to your BYU Organ Faculty course instructor, as there is no student tracking.

INSTRUCTIONS FOR THE TEACHER: The organ student whose playing you have agreed to assist is enrolled in an organ course offered through Brigham Young University Independent Study. This is one of three played assignments, all of which should be finished within a year to complete this course. The student will study organ registration and music theory in addition to these played assignments.

In order to promote the effectiveness of this process we ask that you adhere strictly to the instructions. In this free noncredit version of this level, rather than completing the played assignment in one sitting (which usually takes 60-90 minutes), it is usually best to grade each requirement on this form during lessons as you are satisfied that it has been mastered – or whenever they are ready. Once the played assignment is completed, celebrate with your hard-working student and encourage them on to the next step! These courses are designed to encourage consistent progress in those who cannot commit to full-time college-level organ study. We thank you for the very important part you play towards that end!

Verbal comments, suggestions, and encouragement to the student are always welcome. In general, each evaluation should follow a scale from 1 to 5, 5 being highest. If 10 points are possible, multiply your rating on the 1-5 scale by two:

5 – mostly flawless, demonstrating *deep learning*.

4 – few problem spots, demonstrating the ability to perform with *extra effort*.

3 – (not passing) several problem spots, demonstrating *difficulty* to perform.

1 – (not passing) unable to perform.

There is a wide range of opinion surrounding performance practice (i.e., registration, touch, phrasing, articulation, and tempo). The student's playing should be evaluated on the accomplishment of their and your intentions, including familiarity with at least one approach to solving problems of style. Please hold to high standards in whichever approach that you and the student choose.

If you have any questions, please contact the course instructor directly at organ@byu.edu or (801) 422-3260.

Thank you.

III. Hymn Playing

Have the student play the hymns described in the following chart from *Hymns* published by The Church of Jesus Christ of Latter-day Saints, 1985. Other simple four-part hymns played with a sustained legato approach may be substituted (easy pedal, no more than three manual parts).

- Hymn 3: Now Let Us Rejoice*
- Hymn 19: We Thank Thee, O God, for a Prophet*
- Hymn 67: Glory to God on High*
- Hymn 116: Come, Follow Me*
- Hymn 195: How Great the Wisdom and the Love*
- Hymn 294: Love at Home

The student should play the selected hymns in these ways:

Normal Arrangement Indicate hymn number: _____	Play ONE of the hymns listed above, one verse only, in the normal arrangement. Use a hymn other than the complete hymn from this played assignment.
Manual Only Indicate hymn number: _____	Play ONE hymn, one verse only, on the Great manual (no pedal). This may duplicate the normal-arrangement hymn, but must be different than the manual-only hymn chosen for Played Assignment 1.
Complete Hymn Indicate hymn number: _____	<p>Play ONE hymn completely, with no more complexity than for a church service (introduction and all verses, using a rearrangement of parts and/or a change of registration between verses at least once throughout the hymn). Use a hymn other than the one played as a normal-arrangement hymn. Your teacher will conduct all or part of the hymn, and you should be able to yield to their beat with precision and flexibility. Include tenor solo technique as described below.</p> <p>Choose a section of a hymn (at least two phrases) where the TENOR line has melodic interest. (A few hymns that may include such sections are marked above with an asterisk [*]). Solo out the tenor part with the left hand (play tenor on a manual with a more prominent sound, and play soprano and alto on a different manual with a less prominent sound). Prepare this "tenor solo" technique in two ways:</p> <ol style="list-style-type: none"> a. Play the tenor solo in the normal written range. b. Play the tenor up an octave. (Move the hand; don't just use higher-pitched stops.)
