

Organ Teachers in New Mexico

<https://agoabq.org/resources/organ-teachers/>

Organ Teachers

The chapter maintains a list of current members available to serve as teachers of organ.

Our teaching members have advanced degrees in performance and considerable experience in a variety of repertoire, liturgical styles, and choral conducting.

It is left to the negotiating parties to determine an acceptable rate of tuition and fees, convenient scheduling, and practice facilities.

At your first consultation, it is to your advantage to discern your prospective teacher's qualifications and credentials, to openly discuss your musical goals, and to set out mutually agreed upon expectations for your course of instruction.

Alternatively, the American Guild of Organists has developed a series of 30 organ tutor videos, which you may like to watch and use. The videos range from 10 to 20 minutes each.

Organ Teachers listed on the American Guild of Organists, Albuquerque Chapter
